

Tourism and Sustainability, Master Programme, 120 credits

In semester three, you have optional courses, 30 credits, see [programme syllabus](#) for further information.

The School of Business and Economics offers a guaranteed seat on the following optional courses, provided that you meet the prerequisites within the course syllabus, and that the application is received on time. Each [course syllabus](#) states the prerequisites that you need to fulfil by the time the course begins to partake in the course. Please read the course syllabus before you apply.

4TR521 Introduction to Research Design 7.5 credits

The course equips students with knowledge on social science methods and research tools within the field of tourism and helps them to develop a research question and develop a research plan in an appropriate way.

4TR430 Advanced Research Methodology and Analytical Tools 7.5 credits

The course takes students through some of the most common analytical tools for quantitative and qualitative data (e.g. SPSS, AMOS, MAXQDA, ArcGIS) and interpretation of results. The students work with open-access datasets and analyse their own project data.

4TR601 Internship Project in Tourism and Sustainability 15 credits

The aim of the course is to give the students the opportunity to gain practical experience and also provide the opportunity to critically reflect on tourism practices in relation to sustainability.
