Guides

Course and programme syllabus

The programme syllabus governs a programme's objectives, structure, content and degree.

The course syllabus governs the learning objectives, content, examination, literature etc. of the respective course. It always specifies what prerequisites must be met to be eligible to register and take the course.

Always read through the course syllabus prior to each new course.

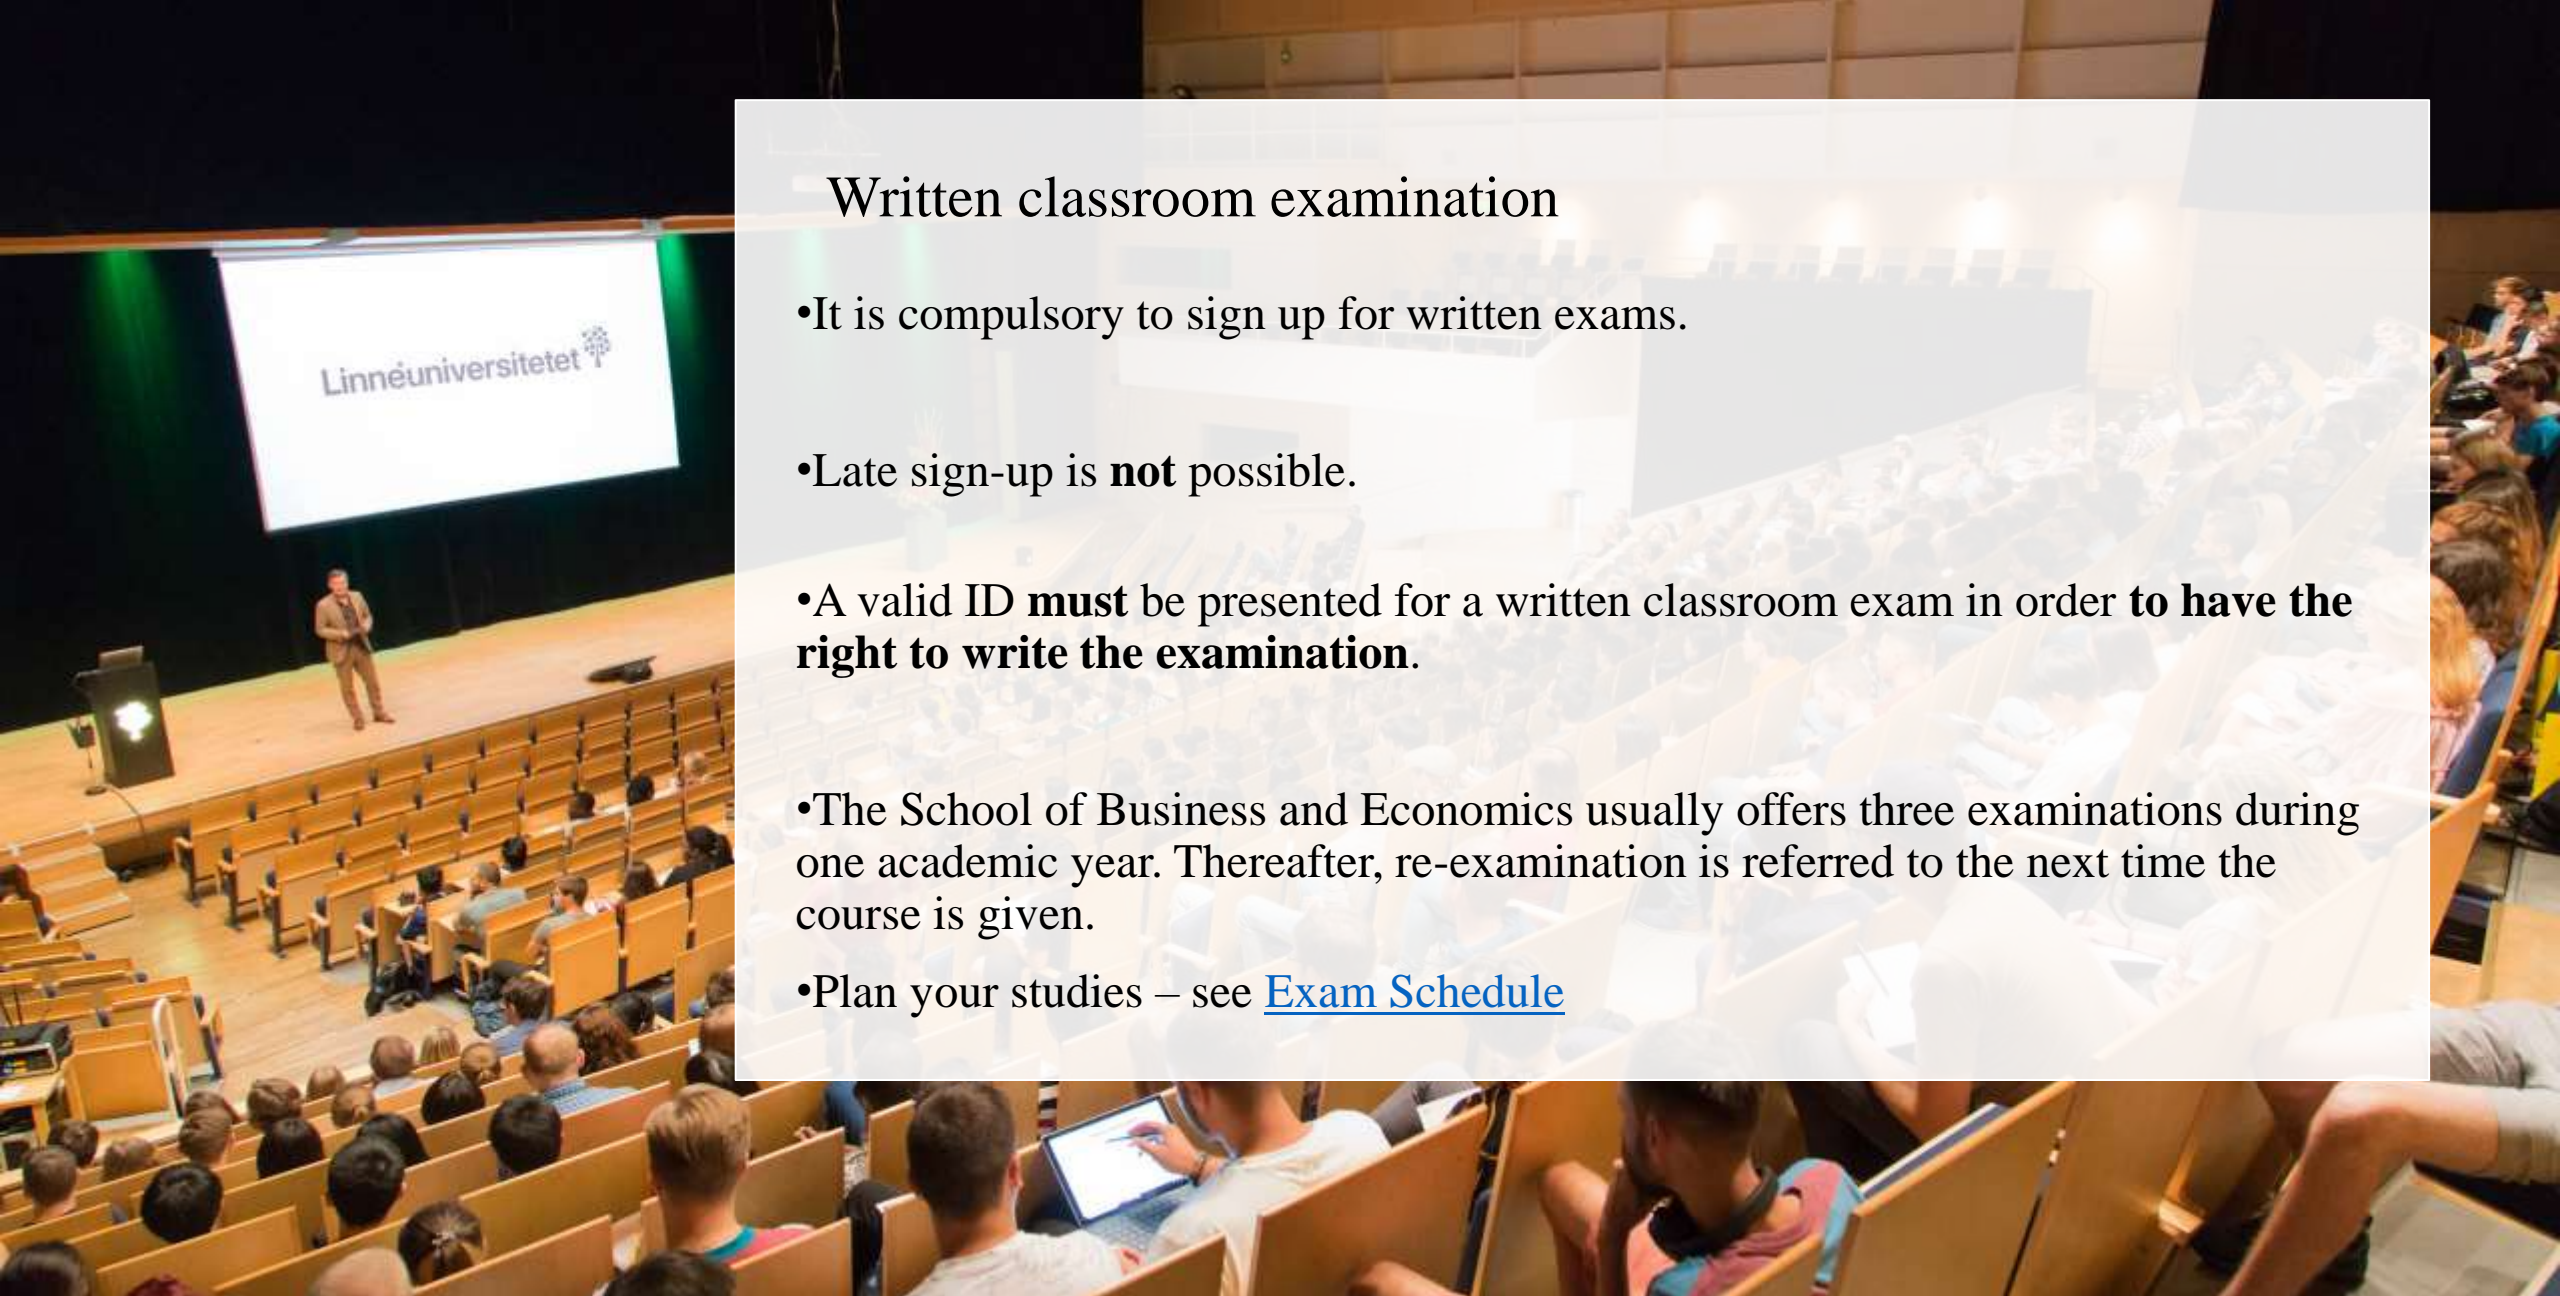

Examination

There are different types of examination, for example written exams, digital exams, written assignments and seminars.

The responsible course coordinator informs how the course is assessed. This is also stated in the course syllabus.

If you received a passing grade you cannot retake the same examination in order to obtain a higher grade.

Written classroom examination

- It is compulsory to sign up for written exams.
- Late sign-up is **not** possible.
- A valid ID **must** be presented for a written classroom exam in order **to have the right to write the examination.**
- The School of Business and Economics usually offers three examinations during one academic year. Thereafter, re-examination is referred to the next time the course is given.
- Plan your studies – see [Exam Schedule](#)

Failed examinations:

- can lead to you not fulfilling the prerequisites for the next course and cannot study further.
- may involve problems with Visa, the Swedish Migration Agency or CSN as they are required for study performance.
- Do not delay too long with re-examination as the course structure may change to the next academic year.

General grading criteria for the A-F scale at the School of Business and Economics

Your performance is measured in proportion to how well you have met the course objectives.

Grade	Assessment	Your results are equivalent to one of the following criteria for each objective for the course
A	Excellent	Outstanding results with only a few minor shortcomings
B	Very good	Very good results with only a few shortcomings
C	Good	Generally good but with some shortcomings
D	Satisfactory	Acceptable level but there are several shortcomings
E	Sufficient	The results meet the minimum criteria
F_x	Insufficient	The Examiner/course coordinator may, in exceptional cases, decide that a student who is close to the threshold for E may perform assignments for extra credit to reach the grade of E. The examiner/course coordinator notifies the student in writing of the rules for submitting such extra credit assignments. The grade of F is assigned in anticipation of the extra credit , and the grade is changed to E if the extra credit is approved.
F	Insufficient	Significantly more work is required

Weighing up of grades for the whole course

The performance is weighted in relation to how well the goals of the course have been met.

All of the course's assessment tasks must be passed before the cumulative grade can be calculated.

The programme administrator performs the mathematical calculation using set principles.

The grade documentation is submitted to the examiner for a decision by signing the results list.

Grades are weighted when the programme administrator translates all assessment tasks graded for a course into figures in accordance to the table on the right.

A-F grading scale	Number scale for weighted average	A-F grading scale	Mathematical grade thresholds
A	9.0	A	8.51–9.00
B	8.0	B	7.51–8.50
C	7.0	C	6.76–7.50
D	6.5	D	6.26–6.75
E	6.0	E	6.0–6.25

Course X, 15 credits	Grade	Translation	Weighted average
Assessment task 1; exam 7.5 credits	B	8	$8 \cdot (7.5/15) = 4.0$
Assessment task 2; case 4.5 credits	C	7	$7 \cdot (4.5/15) = 2.1$
Assessment task 3; lab work 3 credits	D	6.5	$6.5 \cdot (3/15) = 1.3$
Total			7.4

Each assessment task is given the percentage weight that corresponds to the amount of credits it covers. As a result, the sample course gets a C, given that the average was 7.4.
