

# **Entrepreneurship, Sustainability and Social Change**

## **Master Programme, 120 credits**

### **Degree**

Master of Science or Master of Science in Business and Economics (120 credits)  
with specialization in Entrepreneurship, Sustainability and Social Change (Main field  
of study: Business Administration)

# Entrepreneurship, sustainability and social change – in close collaboration

Within the knowledge platform, we strive to work more integrated with research, education and collaboration.

We stand for a broad view of entrepreneurship (new ideas that are realized in all sectors of society), that collaboration across sectoral and subject boundaries is therefore central and that entrepreneurship exists in our everyday lives

Knowledge platform; Entrepreneurship and social change [www.lnu.se/ent](http://www.lnu.se/ent)

# Entrepreneurship as concept and phenomena

- different traditions, perspectives and modes of critique

*What happens when we turn to entrepreneurship as a pathway for societal change?*

*How can we critically assess social entrepreneurship as myth, ideology, politics and power?*

*How can we understand the becoming of something new?*

# After completing the programme

Be able to, independently, critically and on a scientific basis, understand entrepreneurial processes in all sectors of society: business, public sector and civil society.

An indepth understanding that can be used to drive or facilitate entrepreneurship through starting your own business, developing local communities or working with development processes in established companies, government agencies and non profit organisations. With a particular focus on the role of entrepreneurship in economic, social and ecological sustainability for the individual, organisations and society.

This makes the programme suitable for those who want to contribute to social development through their own business, as well as those aiming for a career as a researcher, project manager, administrator or strategist with public authorities, administrations or other organisations that are funded by grants.

The programme also prepares students for third<sup>rd</sup> cycle studies.
