

*Join us for an engaging week  
featuring scientific sessions,  
visits to world-class research  
facilities, and collaborative  
student activities!*

## Infranaut Week

# Bridging Industry, Academia, and Large-Scale Research Infrastructures

---

**Are you a master's student conducting your thesis in  
collaboration with industry?**

Infranaut Week offers a chance to connect with cutting-edge research facilities such as MAX IV, ESS, and Petra III. Students will gain knowledge about advanced research techniques and connect with leading scientists.

The event features workshops, talks, and networking opportunities with academia, industry, and research infrastructure specialists. Whether you're looking to strengthen your thesis, explore industrial applications, or build collaborations, this week is for you!

The event is organised by ARI4Sweden in collaboration with Lund University, MAX IV and ESS.

**WHEN: 5 – 9 MAY**

**WHERE: The Loop, Lund**

**Register via Ungapped**
